

Caulophyllum thalictroides

Blue Cohosh

The flowers are inconspicuous, but the foliage is a lovely blue-grey-green, and the flowers are followed by large, deep-blue berries in clusters above the foliage. A handsome, easily grown woodland plant.

Suggested companions: spicebush (*Lindera benzoin*), pagoda dogwood (*Cornus alternifolia*), lady fern (*Athyrium filix-femina*), blue phlox (*Phlox divaricata*), sugar maple (*Acer saccharum*)
